PERSONNEL STORAGE

When you're ready to invest in a storage solution that's built to last, you're ready for DeBourgh.

Made
in the
USA

Flexible

Designed to accommodate your storage needs. The interior is easily reconfigured to match the equipment and personal preferences of your crew. Components available specifically for storing uniforms, personal protection gear, communication devices needing to be charged, side arms, rifles, duty belts, boots, etc. In all, the interior can be configured into more than 100,000 different combinations of available attachments.

Secure

Our three point three sided latch ensures that valuable personal and duty gear stays secure. The drawer automatically locks when the wardrobe door is closed. The welded construction, in combination with a built in lock or padlock, provide unequalled security. The internal lockable drawer and side arm compartment can be equipped with locks for an additional layer of security.

Rugged

From the all welded construction to the DeBourgh-invented turn handle and latch and from our generously powder coated surface to the beefy 200lb rated drawer glides, this product is heavy duty with a low overall life-cycle cost. These lockers exemplify DeBourgh' creed: "We deliver what we promise - Products that are built to last!" To back it up -The First Responder Series comes with a Limited Life Time warranty.

Patriotic

Manufactured in the USA by America's premier welded locker manufacturer. Lockers are built using 100% American steel with up to 65% recycled steel content. We partnered with First Responders to build a product that will meet the changing needs and heightened requirements of our nation's finest, bravest, and best.

HEAVY DUTY PERSONNEL STORAGE

Begin Your Configuration

Upper Unit

The durable, all-welded upper unit comes in a spacious 24 inch depth. You choose from widths of 18, 24, 30 and 36 inches; heights of 61 and 73 inches. The 3-point, 3-sided latching system is the most secure in the industry!

Add a Drawer Base

The optional drawer base is 17 inches tall. You choose either a 34 inch deep bench base or a 24 inch deep flush front base. The 200 lb. ball bearing drawer glides provide for a quiet and smooth drawer operation.

You've Got the Best Product Available

Now that you have configured the basics, its time to customize the interior!

Internal Configuration

Security Compartment and Clothing Rod

One of our most popular features. This accessory provides you with room to hang your clothing and uniforms while offering a secure place to store your valuables and small firearms.

Side Mount Security Compartment

This accessory provides a secure place for storing valuables. It can be tucked into the top or bottom corner of the storage unit providing you with maximum internal space for other accessories.

Security Drawer

The security drawer provides ample secure storage for valuables while leaving lots of interior locker space for other accessories. The ball bearing glides ensure a smooth drawer operation.

Full Width Adjustable Shelf

The full width adjustable shelf is a popular accessory and provides for storage of notebooks, brief cases, laptops, and just about any other item you need to store.

Full Width Adjustable Body Armor Drying Shelf

This perforated, fully adjustable shelf is perfect for storing your body armor inside your locker unit. The ventilation pattern allows for maximum air flow.

Optional Shelf Stop

The optional shelf stop can be used to keep documents and other items from falling off the rear of a full width shelf.

Two Barrel Rifle Rack

The two barrel rifle rack provides a place to store your rifle and/or shotgun without taking up a lot of internal storage space.

Plug-N-Play Electrical System

DeBourgh offers a 3-circuit, plug-n-play electrical system. This system is easy to install and dramatically reduces the cost of having an electrician install power into each locker unit.

Full Width Clothing Rod

Utilize the entire width of the locker unit for hanging uniforms, cold and wet weather gear, body armor, and other clothing.

12" Wide Adjustable Side Shelf

The adjustable side shelves come in heights of 8, 12, and 16 inches. They can be mounted on either the right or left hand side of the unit.

Lower Drawer Mounted Body Armor Drying Rack

Get the most out of your lower drawer. Store and dry your body armor on the drying rack with your duty bag underneath.

Storage Bins

The adjustable storage bins come in sizes of 4x7x3 or 5.5x10.5x5. These bins mount on an adjustable rail and can be positioned anywhere inside the locker unit.

The Heavy Duty Personnel Locker was designed by first responders to specifically meet the storage needs of our heroes. The features and options available make this product a versatile storage solution.
